Initial Enrollment/Renewal/Disenrollment Instructions

There is one process for initial enrollment, updating and applying for disenrollment from the Exceptional Family Member Program. Per OPNAVIST 1754.2F, all service members with qualifying dependents must maintain and updated EFMP status. Failure to enroll and/or update may impact continuity of EFM care and future POCS moves. It is the responsibility of the Service Member to keep both NFAAS and EFMP updated with their current information.

When to renew your EFMP paperwork:

- EFMP enrollment MUST be updated every (3) years.
- If there is a significant change in medical diagnosis, treatment or medication.
- If the EFM receives a new diagnosis.
- After an Individualized Education Program (IEP) meeting, or an update in the EFM’s learning plan.
- Twelve (12) months prior to PRD.

**Additional Information:**

EFMP enrollment is mandatory and is required immediately upon identification of a special need.

The EFMP covers medical, dental, mental health, developmental, educational, adaptive equipment, assistive technology devices and services.

DoD civilian employees and their family members do not enroll in the EFMP.

EFMP Respite Care is specifically designed for Navy families who have children identified as CAT IV or V.

Category 6 is considered a temporary category and must be updated within one (1) year to receive a permeant category, or to be disenrolled from the program.

Service members can track their EFMP information by logging onto their NFAAS account and clicking on the ‘EFMP’ tab. The EFMP tab will provide the EFMs case number, category, case liaison contact information and case expiration date.

Disenrollment is **NOT** automatic: the EF will not be removed from the program when their case expires. You must apply for disenrollment following the same process as enrollment/renewal. In special circumstances, a memo from your commanding officer may be used in lieu of the DD 2792. Please consult with the MTFC BEFORE beginning this process for confirmation of your situation.

Enrollment in DEERS is necessary for enrollment in the EFMP, however, disenrollment from the EFMP is not related to DEERS eligibility and does not affect DEERS enrollment.
